FINE HOME FURNISHINGS  
(843) 815-3322 - [www.abodesc.com](http://www.abodesc.com)

Front Light builds homes for individuals, couples and families who want a refined, gracious lifestyle and appreciate the concept of "smart living." Their open floor plans—ranging from 1,800 to 2,400 square feet—promote easy, low-maintenance living while creating space for family life and entertaining.

Anne Hagerty Interiors provides a seamless process from concept phase through installation on every project and offers a full range of interior design services tailored to each individual project.

Created with our goal of bringing homebuyers an innovative concept in residential building and re-inventing the modern homebuilding experience, Front Light Building Company is like no other homebuilder in the area. From our partnership with award winning design firm Anne Hagerty Interiors to simplify the process for homebuyers and ensure beautiful designer looks as standard finishes, to our commitment to building in or near communities that combine the small-town lifestyle of our past with contemporary amenities, we are creating living environments that promote well-being for people of all ages.

Front Light not only builds homes, but builds environments that foster a sense of place and a desirable lifestyle for existing and future generations

What makes a Front Light Building Company home unique is that their standard finishes (considered upgrades for most builders) are included - and they've simplified the design process for homebuyers. You are able to choose both your architecture and your interior design selections.

Front Light's innovative partnership with the award winning design firm Anne Hagerty Interiors, allows you to choose from beautiful design packages that offer detailed selections for wall and trim colors, lighting, bathroom and kitchen fixtures, flooring and tile selections. Carefully crafted with unique selections, each package creates a distinct style for each home at an unparalleled value.

Since 2011, Anne Hagerty Interiors has been proud to bring a fresh look at interior design to the Lowcountry. With locations in Historic Downtown Savannah, GA and Old Town Bluffton, SC, we are perfectly positioned to cater to the design needs of the Lowcountry region. Both locations offer retail showrooms showcasing our many lines of upholstery, furniture, fabrics, lighting, rugs and decorative accessories. The firm provides a seamless process from concept phase through installation on every project and we offer a full range of interior design services tailored to each individual project. We are part of *Coastal Living* and *Southern Living's* exclusive Designer Network.
